Master of

The programme delivers enhanced management skills, and a superior understanding of organisations as a whole. Students will explore issues such as training and development, labour relations, staffing, human resources policy impact, organisational behavior, and compensation. Students will be able to apply knowledge of major human resources responsibilities at both a strategic and operational level. Skilled faculty members and Industry experts pass on their knowledge and expertise to students. MHRM students will be equipped with skills needed to manage people and keep up with the changing needs of the workplace

MA (HRM)

Objectives

- In-depth understanding of core business functions associated with human resource management
- Strategic focus on human resource management
- Techniques and tools for driving organisational results
- Holistic approach to assessing organizations and HR functions, identifying opportunities and problems, and formulating strategic solutions
- Capacity to lead cross-functional initiatives and corporate projects in complex organisations

Job Opportunities

The scope for an MA (HRM) graduate is unparalleled. Apart from attractive placements with premium pay packages being offered at campus placements, it opens doors to various opportunities. Corporate careers, Entrepreneurship, Consultancies, Careers in NGO's/Co-operatives etc are some of the various options that a MHRM Management Graduate can think of. The simple fact is that no organisation can survive in a highly competitive world without modern people management skills; and therefore, the demand for well trained HR management professionals will be always prevail.
